# TECHNICAL SPECIFICATIONS

## GOWANUS CANAL

*Prepared by*

**Geosyntec**   
consultants

engineers | scientists | innovators

**Beech and Bonaparte**   
engineering p.c.

*an affiliate of Geosyntec Consultants*

7 Graphics Drive, Suite 106  
Ewing, NJ 08628

Project Number HPH106A

May 2017

## TECHNICAL SPECIFICATIONS

### CONTENTS

-----	Statement of Work
Specification 01 11 00	Summary of Work
Specification 01 32 00	Construction Progress Documentation
Specification 01 33 00	Submittals
Specification 01 35 29	Health, Safety, and Emergency Response Requirements
Specification 01 41 00	Regulatory Requirements
Specification 01 51 00	Temporary Utilities
Specification 01 55 29	Cap Material Staging and Transport
Specification 01 57 13	Temporary Erosion and Sediment Control
Specification 01 57 19	Temporary Environmental Controls
Specification 01 60 00	Product Requirements
Specification 01 71 23	Site Surveying and Grade Control
Specification 01 78 00	Project Closure
Specification 02 22 00	Building Condition Assessments
Specification 02 51 19	Dredged Sediment and Waste Management
Specification 02 60 16	Sediment and Floatables Containment
Specification 31 10 00	Site Preparation
Specification 31 23 00	Upland Excavation and Fill
Specification 31 41 16	Sheet Pile Installation
Specification 31 51 13	Anchor Installation
Specification 35 20 23.13	Dredging and Dewatering
Specification 35 43 00	Cap Construction
Specification 44 08 40	Dredge Water Treatment System Requirements
